

ANDREAS HOME LEARNING

I hope everyone is well and keeping safe. Please note that these are just ideas and are open to interpretation.

Daily Reading

Oxford Owls has proved successful so I suggest that we keep looking at this website and choosing books that are suitable for your child. This is a super resource as they have many banded e-books that the children can read.

I have created a Class login - Username: Curraghs1 and password: Andreas123.

Writing task

Reception: This week, display c, o, g, d, a, q and encourage the children to have a go at writing them. Can they think of some words that begin with each letter. Stretchy challenge: think of a sentence that contains words using all the letters.

Candy went **o**ut with **G**oGo the **d**og **a**nd met the **q**ueen!

Writing task

Year 1, Here are some of the CVCC words that we practise in our phonics:

sham, crab, glad, slam, swam, trap, flat, chat

Using the CVCC sound box template, how many words can you find.

Practise writing them in a sentence.

Numeracy focus

Spending time on maths problem solving is really important but don't be tempted to do it for your child. Investigating, learning through trial and error and figuring your own way through a problem is crucial. There are loads of problem solving websites but the n'rich website is really stretchy!

Year 1 & reception: This week is all about money. Ask your adult to spread all the different coins on a table and see how many you can identify. Make up some simple addition sums by adding the coin values together. $2p + 5p = \dots p$

Stretchy Challenge: Make up your addition sums with your coins and then see how much change you would get from 10p, 20p, 50p or a pound depending on the question! Maybe turn it into a maths story - Mrs Keig went to the shop with a pound and bought some soap for 20p and a Twirl for 40p. How much did she spend and how much change was left from her pound coin?

Topic

Topic: This is our final week before the TT holidays. The Tourist Trophy Race is very important to the Isle of Man as it is our main source of Tourism.

Challenge 1: Design a poster celebrating the TT Festival. Can you add photos and pictures. What could be your catchy slogan? You may have to use alliteration or rhyme to make your writing stand out. Come and see the AMAZING TT!

Challenge 2: You Choose is one of my favourite books! Each page makes you choose your favourite house, favourite place, etc. What would be your favourite way to travel? Would it be a rocket, a fancy car or motorbike. You could model make your vehicle or even make it out of LEGO! Draw a picture, make a collage - be creative! Why is it your favourite transport? You will have to JUSTIFY your response.

Other stuff!

Use the websites attached to guide you as they provide learning opportunities for all sorts of curriculum areas which will help keep your child engaged. Allow your child to choose but monitor these choices carefully so your child isn't always in the comfort zone.

Remember good learning means mistakes are made - if everything is right, your child is using skills they already had.

Cooking is a vital real life skill your child can learn and baking is a great way to teach age appropriate maths such as fractions through sharing, weighing and measuring etc.

Make sure your child still gets lots of exercise - sitting glued to a device is not physically or mentally healthy.

Google search for 'Thanks and speaking and listening activities' and have some interesting conversations with your child that will develop their thinking and oracy skills.
