

Lets zoom in on a habitat. Who lives here?

Lets zoom out. Can you tell who lives here now?

Lets zoom out again. Can you tell who lives here now?

Does a wasp live alone?

How do you think it was made?

What is a group of wasps called?

# Did you realise you were looking at a wasp nest?

Wasps chew up wood to make a pulp that they form into this structure.

Outside

Inside

# Time to investigate!

Your challenge is to explore, as much as possible, investigate and record as many different habitats as you can find.

Is this the habitat  
of a solitary  
animals or does it  
live in a group?

**Bonus!**

Can you think of the  
collective noun for the  
creature you've discovered?  
Eg A pack of wolves.
