

Learning Legends...

It's not linked to academic skills. It's all about the Learn Without Limits and Thinking Moves and it's age appropriate.

Developing good learning is a big part of our curriculum so all children know how to become a good learner. It's about choice.

It's definitely not a competition!

It's a weekly assembly to recognise good attitudes to learning.

It's a celebration not an award/reward system. Extrinsic motivation just doesn't last so it's all about intrinsic motivation. Feeling proud of yourself is the key.

We celebrate good learning in classes every day in lots of ways so becoming a Learning Legend is special and not meant to be easy. Don't worry if your child doesn't get it for a while. The teachers work with everyone to help improve their learning so that when they do become a Legend it really means something and has a high value. It has to be truly earned and may take time.
