

Home Learning Ideas and Topic Information.

WHITE ROSE MATHS HOME LEARNING

Our Themes are completing **Building 9 and 10**, then moving on to **To 20 and Beyond!**

Please follow this link for some home learning video lessons:

<https://whiterosemaths.com/homelearning>

Writing: We are now writing regularly at school. At home children can access their phonic books to help with any high frequency or tricky words and copies of the correct letter formation can be found inside the White Reading Home School booklet.

Reading

As noted on the recent newsletter, children who read at home make better progress than those that don't. **"Please do find time to read with your child at home, especially if they are still learning to decode the words. Five or ten minutes a day will have a significant impact on your child's skill set."**

Please listen to your child read daily and recap sounds/phonics and any tricky or high frequency words in their phonics book.

Thinking Moves Alphabet

Our Topic is Animal Safari!

In the Animal Safari project, your child will learn about incredible animals that live worldwide. They will explore various animal habitats and compare the animals that live there with animals in their locality. They will learn how to care for pets and what all animals need to grow, survive and stay happy and healthy. They will explore animal features and find out how they survive in the wild. They will compare the ways that animals are similar and different.

Supporting your child at home

- Go on a local safari to find out about the animals that live in your garden or local park.
- Look at animals from around the world, discuss your favourite animals and find out some fantastic facts.
- Share and discuss the [Did you know?](#) resource.

A Home Learning Pack to support this topic is attached if required. Please contact Mrs Robinson if you need it printed.

We will be having lots of welly walks and starting **Forest School lessons** in our Woodland Workshop.

Other Areas of Learning:

We will have a strong focus on our Learn Without Limits and begin looking closely at the Thinking Moves alphabet so we can recognise the best thinking for our learning!

Physical: Callum our MSR coach will continue to coach basic ball and games skills on Wednesday mornings. There will be additional sports day preparation and gymnastic lessons.

Creative: Working with Mrs Manser children will be creating animal masks, singing animal songs, reading animal themed stories to develop understanding of habitat and food choices.
